

# SherPlayer SSI-Q87N-EXT4K-6

## HIGH DEFINITION **SIX Output Appliance**

Utilizing the industry's first six DisplayPort output graphics card, the new SherPlayer-SSI-Q87N-EXT4K-6 media player can drive up to six displays in independent, clone, or extended mode. This appliance also allows for up to six independent Surround Sound audio channels. This versatile appliance is powered with an Intel I7-4790S processor, 8GB DDR3 memory, a 500GB hybrid drive, and more. Whether you want to power a 2x3 4K video wall, a multi-monitor display wall in a public venue, or feed six individual displays in separate rooms in your business office environment, the new SSI-Q87N-EXT4K-6 can handle these applications and more.
